**Medical Grade Skincare**

Dr. Malek Hussein & Huda Alaeddin PA-C

# OUR STORY

Dr. Malek Hussein a board certified medical doctor his wife Huda Alaeddin a board certified Physician Assistant, along with their sisters, that carry the Palestinian beauty -- shared a common dream beyond their medical practice. Both deeply connected to their Palestinian heritage and driven by their desire to help people, they embarked on a remarkable journey to create something more than just skincare – a blend of science, tradition, and compassion.

Their journey began with a simple idea: to harness the natural beauty secrets passed down through generations in Palestine and combine them with modern medical expertise to create a skincare line tailored specifically for men & women. Drawing inspiration from the rich history of their homeland, where olive oil, rose water, and other natural ingredients have long been cherished for their skin-enhancing properties. This mixed with their background in medicine, the couple set out to formulate products that would not only nourish the skin but also empower and embrace natural beauty.

As their skincare line gains recognition, Malek and Huda plan to remain true to their roots, using their success to give back by building and rebuilding hospitals across Palestine.

## ANTIWRINKLE & BRIGHTENING CREAM

**A medical-grade skin care line formulated with higher concentrations of active ingredients that are clinically proven to be effective.**

### Kojic Acid

Derived from fungi, inhibiting the production of tyrosinase resulting in more even-toned skin

It also delivers some antioxidant protection and anti-inflammatory properties.

### Tretinoin

Derived from vitamin A increasing cell turnover in the skin, which helps unclog pores, reduce inflammation, and stimulate collagen production to reduce wrinkles.

### Hydroquinone

Skin lightening and brightening agent works by inhibits an enzyme necessary in the production of melanin, helping to fade dark spots and discoloration.
